Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to AAV expression vectors, packaging cell lines for said vectors and a method for delivering a polypeptide of interest comprising infecting the cell with said expression vectors, classified in class 435, subclass 320.1.
- II. Claim 9, drawn to a non-human transgenic mammal expressing DNA encoding human chromosome 19 AAV integration locus, classified in class 800, subclass 14.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions involve unrelated compositions. The AAV vectors and packaging cell lines for said vectors are unrelated to a transgenic non-human mammal expressing the human chromosome 19 AAV integration locus. The method of Group I does not require the transgenic mammal of Group II and can be practiced with non-transgenic organisms.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Jennifer D. Tousignant on 12/6/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
